

## WELCOME TO THE PROLOGIC INSPIRE RANGE ROD RANGE

This ultra slim, Hi-modulus, multi directional Carbon blank sets new standards for our carp rod range.

The low resin construction process dramatically reduces stress fatigue ensuring the blank remains incredibly crisp and will not soften over time. We have utilised 'Cross-over carbon technology' to provide the perfect balance between power and feeling. This gives unparalleled response and casting precision.

Rapid response Toray Carbon Nano fibres are woven throughout the construction to reduce weight and achieve a super-fast recovery on casting. The stylish, machine cut 1K carbon reel seat provides the ultimate transmission between strength, security and flexibility, allowing the user to feel the smallest sensations.

Ultra-light weight, 50mm Minima butt guides enhance the weight saving further (30% lighter than standard SIC guides) and are fitted throughout the entire range (40mm on 10ft models) These guides offer the very best in performance, resilience and style.

### AR - ALL ROUNDER

**10ft 3.25lb** has been developed for boat work and small waters. The soft, responsive tip and mid-section provide perfect balance and forgiveness when playing large fish at close range. The power steps in closer to the butt section and the blank design ensures there is ample in reserve should it be required.

**12ft 3.25lb** Developed and used by Adam Penning, this is the 'go to' rod for most of our Team. This blank has been designed to be an all-rounder and has proven to be comfortable in just about every given situation. The beautifully crisp tip elegantly blends into the progressive mid-section where huge reserves of power are waiting to be utilised when required. This incredibly versatile blank fulfils that age old requirement of being genuinely at home at short range or when casting leads up to 4ozs toward the horizon.

### XD - EXTRA DISTANCE

**12ft 3.50lb** This fast action rod is at home on mid - dle sized to large waters. The tip section provides a very forgiving action which allows playing fish on a short line without pulling the hook. Beyond that, the rapid response Nano fibres enable it to power up rapidly, making it the perfect choice for PVA bags and Method work. This rod will make those long casts towards the 200m mark both realistic and effortless

**13ft 3.75lb** This blank is our supreme distance tool. The ultra-fast taper and fibre technology make easy work of long range fishing. This rod has been designed for extreme long range casting and European competition style fishing. This light weight, yet exceptionally powerful rod uniquely balances that power with a responsiveness that we believe is unsurpassed. In testing, this model saw us reach measured distances in excess of 200m.

- High modulus Multi-directional Crossover Carbon technology
- Rapid Response Toray Carbon Nano fibre cross weave
- Super slim reinforced over fit joints for superior strength
- 50mm Ultra-light Pac Bay Minima butt Guides on all models (except 10ft)
- 16mm Anti-frap tip guide – dramatically helps to prevent crack offs
- 1K Carbon Machine cut 18mm reel seat fitted with Fuji collars
- Gun smoke fittings paired with black whippings
- Laser etched metallic butt cap and rear collar
- High grade Cork or Full EVA options available on all models

### FAST WATER RS CARP ROD

Over the last five years, our Fast Water rods became a real reference for all the big river carp fishing lovers. This new version features some important upgrades and a significant style update. The blank is now even lighter and responsive thanks to the ultra light guides, but keeps the same amazing performances which have made this rod famous all across Europe. We have also included a new 11ft version, studied for medium sized river.

- 40T High Modulus Carbon
- ALPS reel seat
- Enlarged butt cup for comfortable fight
- 3K Carbon reinforcements in stress points
- SIC guides with ultralight frame
- Parabolic progressive action
- Reinforced guide wrapping.

# THE ELEMENTARY AND MINIMA-LISTS CHOICE

SLIM CORK

FULL SHRINK

## C2 ELEMENT SC/FS CARP RODS

Showing its true pedigree, being created in the same stable as the "Inspire" Carp rods. The C2 Elements offers everything the desiring angler is after with regards to looks, style and functionality. The C2 range in much more focused on offering you the correct tools to cover every situation. The 10ft version has an extremely forgiving action. Were the power is situated much further down the blank making for a very forgiving action when playing large powerful fish at close range and Boat work. The 12ft 3-3.25lb offer a much more parabolic action and are the go to rod for most of our Prologic team. Were as the 12/13ft 3.5lb options have been cleverly tuned to offer a much more focused and faster action for those of you wanting a little more.

We have combined a truly magnificent mix of hi grade 24T Modulus Carbon, resulting in an extremely light yet very responsive blank. Our new very stylish satin black MM-Series guides are strong and very robust and aid further in reducing unsprung weight, reaction times and make for a much more efficient and accurate cast. All C2 Element models are fitted with 50mm M-series guides reducing the overall weight by up to 30% when compared to standard SIC ringing. Large diameter 16mm anti-frap tip guides help preventing crack-offs and aid further when fishing weedy waters and dealing with weed-jam on the line.

HD-DPS reel seats make the perfect transmission from rod, reel to user and you have the added options of choosing either our Full Japanese Shrink or a very desirable Full Cork Wrapped versions.

- 24T HM Dry-Weave Styled Carbon Blank
- 50mm Satin Black MM-Series Guides
- 16mm Anti-Frap Tip Guides
- HD-DPS Reel Seat
- Differentially Tuned Actions
- 2 Stylish Handle Configurations
- SC- Slim Cork

# FOCUSED ON RECONNAISSANCE AND PRECISION DEPLOYMENT

## PROLOGIC BOMBER ST SPOD & MARKER ROD RANGE

The Bomber ST is set to redefine Spod rods. Constructed using 30T HM carbon blank has been specifically engineered to get the best results with minimum effort. Crossover Carbon technology has been applied throughout its whole length, resulting in a fast Progressive action with an ultra-fast "ST" Special Taper tip section. This increases the recovery rate which in turn helps eliminate Spod wobble in flight.

Making for a cleaner, straighter and much more efficient accurate cast. A slim HDPS reel seat ensures a secure reel fitting even on the most aggressive casts while its smooth black finish also makes it easy to clean off any Spod spill.

High quality Japanese shrink wrap ensures a positive, yet comfortable grip can be made on the butt section. All 3 models are armed with ultra-light, super strong triple legged 50mm SIC ringing and anti-frap tip rings. Further increasing the line flow for maximum efficiency and avoiding those costly crack offs.

Although mainly focus on its Spodding/Spombing attributes, the STs action also makes it this the go to choice for our Prologic Team members when they are featuring finding. Thanks to this very responsive tip section, the transmission is perfectly tuned in and offers the user the ultimate in feedback and help in finding those precious glory holes. A truly magnificent combination for bait application and a precision Marking and feature finding tool rolled into one.

- ST Special taper with a faster progressive action
- Crossover Carbon Technology
- HDPS reel seat
- SIC super light 50mm ringing
- Anti-frap tip guide
- Dual Purpose Marker Measuring scale
- 3 Different Lengths models

### QUICK RELEASE LANDING NET

The Quick Release Landing Net is by far the easiest and fastest carp landing net on the market. It combines a stainless steel spring loaded spread block, which makes it possible to put the mesh arm connectors in parallel positions - and then thanks to the reinforced Quick Release connection you can put in place the net head in a blink of an eye. Vice versa procedure to remove the mesh: it has never been so easy and fast to take apart the net head and to safely place your catch on the unhooking mat.

The Quick Release Landing Net is available in two versions: 42' mesh with 180cm one section handle, and one dedicated version for our C.O.M. concept with 32' mesh and 180cm two section carbon handle.

- Full carbon handle
- Full carbon mesh arms
- Fast dry mesh
- Reinforced Quick Release connections for the net head
- Virtually indestructible nylon spread block

### PROLOGIC CRUZADE 42' LANDING NET 180CM 2SEC CAMO

If you're looking for a landing net that not only offers strength and reliability whilst not breaking the bank, then you need look no further than the Prologic Cruzade Camo 42' Landing Net & 2 pc handle. This net boasts a carbon composite handle, which is exceptionally rigid whilst also maintaining a low weight. This means that the handle won't bow under the pressure of your personal best capture on your next carp fishing session. This 2-section handle is 180cm when put together in full length, which is approximately 6ft and packs away very conveniently into half that size. This is the perfect length for targeting a huge range of the carp fishing from everyday bank work or using the handle at its half-length making it an ideal choice for those tighter swims while stalking and boat work. This very versatile Net fills you with the confidence that you'll always be able to land your catch. The 42' arms of the Prologic Cruzade Landing Net are manufactured using ultra-lightweight super strong composite materials. What's more, the Prologic Cruzade Landing Net is manufactured using a fish friendly and very desirable Camo mesh. The ABS spreader block. ensures that net arms are fixed to the handle with precision and strength. Making it the ideal landing net for the angler on who doesn't want to compromise on quality, performance and style.

- 2pc Handle Construction
- Light Weight Composite Materials
- 42' Fish Friendly Camo Mesh
- ABS Spreader Block
- Japanese Shrink Grips Sections

### PROLOGIC XLNT 1 MAN BIVVY

The new XLNT 1man Bivvy offers exceptional strength and greater rigidity with less weight. The X frame poles have just two joints (3 sections) on each, making it effortless and easy to set up. The crossover design offers incredible stability which is braced further once the tension poles are secured in place.

Never have we seen a Bivvy so stable and rigid, making it your first choice when fishing open exposed waters while providing confidence and security when taking on mother nature at her worst. The semi flat back provides essential internal space, allowing the bed chair to be placed even further back, parallel to the rear. The unique design makes the most of internal space, without increasing footprint, allowing it to be pitched in the tightest of swims.

The aggressive styled, downforce designed peak, ensures the elements are deflected straight over the top while the anti-drip beading channels water away to the sides. Also fitted to the peak are two high vis Velcro rod retainers which have been placed either side of the door way allowing you to enter and exit with ease.

The fully removable front offers the angler even more options, the whole front can even be zipped down pillar box style should you require it. The same pillar box options have also been fitted on the front door and the zipped, covered, mosquito mesh door panel.

A very generous zipped covered rear mosquito meshed vent allows for the best air exchange possible, keeping you cool and bite free on those hot sticky nights.

The new dark green Double coated 210D waterproof tough anti-tare fabric provides the ultimate in protection and insulation from rain, sun and condensation and has a hydrostatic head to 10,000mm.

Dimensions: Height 122cm, Length 250cm, Width 200cm, Door Height 117cm

Bivvy weight 6.56kg (excluding pegs/groundsheets)

- 210D Double Coated Anti-tare fabric

### COMMANDER X1 BIVVY 2MAN

Spacious and comfortable, the COMMANDER X1 offers great stability against the harshest of weather conditions. It can easily accommodate two wide bedchairs and has a multitude of door panel options. The front mozzzy panel can be used to replace both the front panel of the bivvy or the front panel of the overwrap and the optional inner dome offers complete protection from bugs and insects during the warmer months. As with all the other bivvies and brollies from the COMMANDER range we have used our very own Storm Safe Tex, a new coated fabric which offers fantastic insulation and protection from the toughest conditions.

With the optional overwrap in place it is also possible to create a spacious porch area for sitting, cooking and relaxing during rainy days.

- Storm Safe Tex, new coated fabric with 10.000mm hydrostatic head
- Heavy duty coated groundsheet with zipper connection
- Rear mozzzy mesh window
- Detachable front panel
- Improved X-Frame construction
- Generous front peak
- Two way zipper on the front door

### FRAME-X BIVVY ONE MAN

New frame concept, self-standing, easy to erect and space optimization at its top. The all new FRAME-X BIVVY features a brand new construction concept that makes the set-up of the bivvy easy and fast like never before. The two main frames are made in three sections and once connected they create an X shape on the two sides that creates incredible stability. Thanks to this special design this bivvy offers a very good internal space, keeping a very reduced footprint so it can be placed even in the tightest of swims. Also available as an optional extra, there is an overwrap available, made using the same strong and waterproof fabric used for the bivvy. It provides ultimate protection from rain and more insulation, eliminating all the problems of condensation.

It also provides a little extra space in the front where it is possible to store some of your gear during rainy days.

- 210D Rip-stop fabric
- 100% waterproof
- Reinforced groundsheet
- Metal pegging points
- Mosquito mesh door
- Unique X frame design
- Semi-flat back for maximum internal space
- Dimension: H145cm, W260cm, D210cm

### K3 BITE ALARM

The K3 bite alarm is the result of a 2-year project which has seen countless tests, tweaks, more tests and further tweaks. The aim was to produce a compact, waterproof alarm with unrivalled battery life while remaining feature-packed and pleasing to the eye.

Removing the tone function has allowed us to install a smaller, less power-draining speaker for a much more compact unit with a superb battery life.

The body features a crossover-construction consisting of high grade aluminium, 3K Carbon and high strength nylon, reducing weight where possible whilst maintaining overall strength and durability.

Though small, the K3 is feature-packed including a 30-second silent mode for attaching indicators silently and dual isotope slots for those wishing to personalize their setup even further.

The K3 Alarms are fully waterproof (IPX6 rated) and come supplied with protective covers.

- Four volume level (including silent mode)
- Five sensitivity level
- Waterproof (IPX6 rated)
- Temporary silent mode (30 seconds)
- Two Isotopes slots
- Machine cut 3K Carbon body and high grade aluminum base
- Up to 150m wireless range
- Operate with one CR2 3V battery (not included)
- Protective cover included

Bivvy light integrated in the receiver

Cover for receiver

**K3 BITE ALARM RECEIVER**

The K3 Receiver is actually much more than just a receiver. As well as featuring the same 3K Carbon construction of the bite alarm, the unit also doubles up as a fully functioning bivvy light!

A magnetized section built within the supplied protective pouch allows the unit to be attached to the roof of your bivvy/brolly. The light function can be activated manually or configured so that it automatically triggers in the event of a run.

Features a strong 150m range and operates via 3 x AAA batteries.

- Built in bivvy light with manual on/off or automatic on in case of a run
- Protective pouch and magnetic bivvy holder included
- Six channel available
- Four tone level
- Five volume level (silent with vibration included)
- Up to 150m range
- Real 3K Carbon body
- Removable and foldable antenna
- Operate with three AAA batteries (not included)

### BAT+ BITE ALARM SET

Stylish, reliable and great bite detection accuracy, the all new BAT+ bite alarm set is built to last. The internal electronic system has been tested for over one year all across Europe, facing every possible fishing and weather condition. The modern design includes a very deep rod recess which makes it possible to fish extreme situations without the use of additional snag ears. Alarms operate with AAA batteries, while the receiver operates with a 9V battery, this creates the best possible compromise between energy consumption and wireless range. The new BAT+ bite alarm set is available with blue LED (2+1, 3+1, 4+1) or traditional assorted colored LED (3+1 and 4+1).

- Blue set available in 2+1, 3+1 and 4+1
- Multi color set available in 3+1 and 4+1
- 5 Sensitivity setting
- 6 Volume level plus silent mode
- 100 Meters range
- Manual night light function
- High visibility LED
- Alarms operate with 2 AAA batteries (not supplied)
- Receiver operates with 1 9V battery (not supplied)
- Waterproof.

### K1 LOW PROFILE 2 & 3 ROD POD

The K1 Low profile rod pod is the brain child of our highly skilled consultancy team. Making it one of the lightest and most compact Rod pods we have ever produced. The K1 low Profile is designed to give you the options without the inconvenience of having to carry extra kit. Whether you require a single bank stick to buzz bar or even a stylish goal post set up incorporation the adjustable uprights, the K1 low profile can cover almost every eventuality without any compromise.

The K1 styled goal post buzz bars simply drop in to place and are secured further by an external locking screw. This oversized CNC precision cut alloy brace in fully adjustable in length and allows for a quick and effortless assembly. Boasting both strength and stability that has never been seen before on such a compact set up. The K1 Buzzer bars are all fitted with locking collars, meaning that the interchangeable buzz bar uprights can be secured with confidence. They are all fully adjustable via our K1 cam-lock system allowing you to fine tune and adjust your set up accordingly.

The padded carry case offers great protection and has been really thought about with regards to bank time efficiency. Once your Bite alarms and butt grips have been mounted on the uprights simply remove the upright internals and place them in their very own dedicated storage position within the carry bag. Making the most of your precious time on the bank, resulting in more time fishing and less time wasted.

- High Grade Black Anodised Aluminium
- Precision Machine Cut Buzzer Bar mounts
- 16mm Diameter Tubes
- Low Centre of gravity
- Multiple set up options
- Adjustable uprights and centre brace
- Locking collars Buzzer bars
- Deluxe Padded carry case

### WIND BLADE BITE INDICATOR

One more great innovation from Prologic, this visual bite indicator is a real hybrid between swing and hang solutions and it takes into consideration all the situations where side winds push our indicators strongly, creating a lot of disturbance and false detections in our alarms. The aerodynamic shape allows the Wind Blade to easily "cut" the side wind, and the unique system that combines a rubber spacer and a twin internal spring, provides superb stability. The adjustable quick release connection allows you to change the angle of the Wind Blade so you can have perfect line tension – no matter what angle you have placed your rods in.

- Twin spring internal tensioning system
- Quick release connection
- Adjustable connection angle
- Stainless ball line clip
- Beta light slot
- Available in blue, red, green, yellow and black
- High grade Aluminium body

### ILLUMINATED EVA MARKER FLOAT KIT

Innovative marker float made using high-density EVA. Thanks to the natural properties of the EVA body it features natural high buoyancy and a good softness, which makes these floats almost unbreakable.

It is supplied with two different heads: arrow and round. Both of the heads can be used normally or, if needed, they can be illuminated simply turning in the "on" position on the battery.

- Supplied with two different illuminated heads
- Two batteries included
- Up to 80 hours illumination with one battery
- Superb buoyancy
- High visibility colour

### LUMIAX MKII HEAD LAMP

The new Prologic Lumiax MKII Head Lamp is smart, practical and extremely user friendly. As well as a standard manual lighting configuration, the Lumiax also features smart movement sensor technology to help maximize battery life. Four different white light options can be selected in addition to two red light options.

Capable of an impressive 70m beam range 135 burn time via 3 x AAA batteries, the Lumiax also boasts an IPX6 waterproof rating, meaning it can withstand the heaviest of downpours you're ever likely to face.

- White light function : 100lm - 200lm - 40lm - strobe
- Red light function : 15lm - 30lm
- Movement sensor activation option for the white light only
- IPX6 Waterproof
- Up to 70 meters shooting beam
- Up to 135 hours burning time
- Elasticated and adjustable head band
- Operate with three AAA batteries (not included)

54496	String 20m	-

Pack Size: 5

## HOOKS – HIGH CARBON STEEL CARP HOOKS

After building up our good reputation on carp fishing hooks during the last 10 years, we have finally taken the logical step forward and started our very own production facility. This allows us to select only the very best High grade Carbon steel wire from Japan, and to produce limited quantity of hooks following exactly our own specifications on shape, point and coating.

Swivel Hook LS

### SWIVEL HOOK

Perfect for Spinner/Ronnie Rig style pop-up presentations or to dramatically improve hook rotation on stiff bottom-bait presentations.

Supplied with short section of silicone tubing that slides over the hook eye to create an aggressive claw-like angle for instant hook rotation and improved hook holds.

For stiff bottom-bait rigs, the 360° hook movement allows the bait to be approached from any direction resulting in the same devastatingly-effective hook hold.

Supplied ready equipped with a ring swivel running through the eye of the hook, ensuring a much neater, streamlined presentation than a normal quick-change swivel offers. Simply tie a boom section to the large ring using your chosen hooklink material, attach a bait and you're ready to start fishing!

ITEM NO.	DESCRIPTION	SIZE	PCS	PRICE
62072	Swivel Hook LS	Size 1	5pcs	-
62073	Swivel Hook LS	Size 2	5pcs	-

Pack Size: 5

### XC1

This hook is slightly off set with curved in turned point and 13 degree down turned eye, A truly great pattern which can be used with most presentations. But comes into its own when using soft flexible hook link materials. The off-set point combined with the down turned eye, helps guarantee a quick but perfect rotation of the hook. Maximising your chances of a hook up.

- CC83 High grade Japanese carbon-steel
- Off set point
- Curved point
- 13 Degree down turned eye

### XC2

An all-time classic pattern, one of the most popular and effective hooks ever. If you were only allowed to choose one hook to fish with, then we strongly suggest the XC2. Long Shank, straight point and down turned eye make it a great choice and so versatile for many presentations. Whether it's a pop-up, bottom bait, balanced bait or snowman. Popular for blow back rigs the options are endless, a perfect bottom jaw hook-up every time.

- CC83 High grade Japanese carbon-steel
- Long shank
- Straight point
- 25 degree down turned eye

Pack Size: 10

### XC3

Wide gape, in turned point, medium length shank with a straight eye, this is a truly multipurpose hook, mostly used by our Prologic team members for Fluorocarbon/ Mono presentations when using stiff rigs and D rigs. This design has also proven to be a really good performer, when used in super supple rigs in conjunction with our Line Aligner sleeves.

- CC83 High grade Japanese carbon-steel
- Wide gape
- Short shank
- Curved point
- Straight eye

### XC5

Ultra strong hook, in turned point, wide gape and short shank with down turned eye. Perfect for any kind of bottom or balanced presentation, especially when fishing extreme situations like snag fishing or long range fishing with small baits, the XC5 provides an excellent hook up.

- CC83 High grade Japanese carbon-steel
- Wide Gape
- Short Shank
- 15 degree down turned eye
- Curved point

ITEM NO.	DESCRIPTION	SIZE	PCS	PRICE

49608	Hoox XC5	#6	10pcs	-

Pack Size: 10

### XC7

New introduction to our range, this very unique shape of hook came from the experience of our UK consultant Rik Johnson who has revised and improved his all-time favourite pattern the XC4 from our previous range. At first they look almost the same but the new XC7 features very small changes which makes a huge difference on the mechanics of the hook. The hook shank has been slightly shortened which aids strength and the eye is now down turned by 3 degrees which dramatically increases the rotation/flip speed. A great pattern which is very versatile for a multitude of different presentations. The perfect hook hold and hook-ups to the bottom jaw will increase dramatically.

- CC83 High grade Japanese carbon-steel wire
- Straight point
- 3 degree down turned eye
- Medium length shank

Pack Size: 10

### XC8

Another great new addition to our range, purely dedicated to using stiff hook link materials. A 20 degree out turned eye makes it a great choice for stiff rigs, chods and zig rigs. A wide grape means the ultra-sharp straight point will have no problem grabbing hold on the next bite.

- CC83 High grade Japanese carbon-steel wire
- Wide gape
- Straight point
- 20 degree out-turned eye

# LAST METER

## FIRST CONTACT

### LAST METER MIMICRY 3D RIG ACCESSORIES

#### THE ART OF CONCEALMENT

Following the great success of our Mimicry 3D mainline, we felt that it was only right to compliment this superb range with a collection of Mimicry 3D terminal bits. Throughout this 2-year project, we have sourced some of the most cutting-edge materials available and following an extensive field testing process we found that the Mirage pattern provided the best concealment across any type of lakebed.. The Last Meter Mimicry 3D Rig Accessory range consists of all commonly used components as well as several innovative and unique additions that will help take your presentation game to the next level.

#### MIMICRY SAFETY LEADCLIP & TAILRUBBER

- Designed to safely release the lead should it become snagged
- For use with size 8 swivel
- The swivel can be locked and fixed with the swivel pin
- Ultra strong plastic material

ITEM NO.	PCS	PRICE
54403	10pcs	-

Pack Size: 5

#### MIMICRY DISTANCE LEADCLIP & TAILRUBBER

- Designed for distance fishing
- Recommended for use with heavy leads
- Designed to release the lead should it become snagged
- For use with size 8 swivel
- The metal arm reduces twist, releases easier and is stronger for bigger leads

ITEM NO.	PCS	PRICE
54404	10pcs	-

Pack Size: 5

#### MIMICRY FLAT LEADCLIP & TAILRUBBER WITH SPEED LINK

- Designed to be used with speed link (included)
- Change your rig easy and quickly
- Speed link can be locked with the pin
- Can be used with any size of lead
- Designed to release the lead should it become snagged

ITEM NO.	PCS	PRICE
54405	10pcs	-

Pack Size: 5

#### MIMICRY ANTI TANGLE TAILRUBBER

- Tailrubber with short anti tangle tube built in
- 10cm long
- Ideal for long distance casting on 'naked' setups
- Excellent anti tangle properties
- Compatible with all Last Meter lead clips
- Can also be used as shock absorber for Chod rigs

ITEM NO.	PCS	PRICE
54406	10pcs	-

Pack Size: 5

#### MIMICRY SEMI FIXED RIG KIT

- Can be used fixed or running style
- Swivel pin to lock the swivel
- Increased upper cone for better grip with anti-tangle tube
- Lead drop off option on the lead link sleeve
- A truly multi-purpose presentation
- Unrivalled anti tangle properties

ITEM NO.	PCS	PRICE
54407	4pcs	-

Pack Size: 5

#### MIMICRY HELICOPTER / CHOD BUFFER

- Two part chod buffer
- Can be used for helicopter presentation
- Fixed chod on soft core or leadcore leaders
- Running chod on mono
- Extremely safe and fish-friendly

ITEM NO.	PCS	PRICE
54408	15pcs	-

Pack Size: 5

#### MIMICRY NAKED CHOD RIG SYSTEM

- Designed to grip on monofilament
- Construction in two parts
- Ultra light-ultra slow sink
- Extremely safe and fish-friendly

ITEM NO.	PCS	PRICE
54409	10pcs	-

Pack Size: 5

#### MIMICRY CHOD DROP-OFF LEAD SLEEVE

- Shock absorber sleeve
- Can be used for chod and helicopter setups
- Lead drop off option

ITEM NO.	PCS	PRICE
54410	10pcs	-

Pack Size: 5

#### MIMICRY DROP-OFF LEAD BUFFER

- Ideal for running rig and helicopter rig
- Thick but soft construction
- Shock absorber
- Lead drop-off option

ITEM NO.	PCS	PRICE
54411	20pcs	-

Pack Size: 5

#### MIMICRY ANTI TANGLE RIG SLEEVE

- Pushes the rig away from the lead on the cast to eliminate tangles
- For use with size 8 swivel
- Slim design for better presentation
- Parallel swivel chamber reduces damage from quick links
- Ideal for use with Prologic Quick Change Swivels
- Slow sinking
- Protects knots

ITEM NO.	PCS	PRICE

49979	Rig Kit	-

Pack Size: 5

# LAST METER!

## BECAUSE THE REAL MAGIC HAPPENS AT THE LAST METER

We have been working hard over the last two years to set up a new and comprehensive range of terminal tackle able to cope with the high technical specifications needed from every modern carp angler. The rigs used in carp fishing have evolved dramatically during the last few years, so we have been fine tuning each product down to the smallest detail to reach our target. We have used mostly TPU material, which is the best Eco-friendly plastic that can be used for this kind of products, reducing the usage of traditional PVC to very few items.

Even the packaging has been studied to be totally user friendly: most of the boxes can be used straight in your tackle box, and thanks to the special stickers that provide product information and images on the front and on the top it will be easy to recognize the product you are looking for in any moment, then each box can be re-used in many ways to store other small accessories.

### SAFETY LEADCLIP & TAILRUBBER

A safe lead clip system for use with swivel leads

- Designed to release the lead should it become snagged
- For use with size 8 swivel
- The swivel can be locked and fixed with the swivel pin

ITEM NO.	PCS	PRICE
49886	10 pcs	-

Pack Size: 5

### DISTANCE LEADCLIP & TAILRUBBER

A safe lead clip system for use with heavy leads and designed for distance fishing

- Designed to release the lead should it become snagged
- For use with size 8 swivel
- The metal arm reduces twist, releases easier and is stronger for bigger leads

ITEM NO.	PCS	PRICE
49887	10 pcs	-

Pack Size: 5

### TOTAL SAFE LEADCLIP & TAILRUBBER

A safest lead clip system for use with soft/hollow leaders. Not for use with stiff leaders like lead core and fluorocarbon

- For snag fishing or any situation where soft leaders are used
- For use with size 8 swivel
- The best lead system for fish safety

ITEM NO.	PCS	PRICE
49888	10 pcs	-

Pack Size: 5

### HEAVY DUTY LONG LEADCLIP W/PINS & TAILRUBBER

A safe lead clip system for use with extremely heavy leads ideal for big river fishing

- Designed to release the lead should it become snagged
- For use with size 8 swivel
- The metal arm reduces twist, releases easier and is stronger for bigger leads

ITEM NO.	PCS	PRICE
49889	10pcs	-

Pack Size: 5

### ANTI TANGLE RIG SLEEVES

Rig sleeve designed to protect the knot and force the rig away from the lead to reduce tangles

- Pushes the rig away from the lead without impairing the performance of the rig
- For use with size 8 swivel
- The metal arm reduces twist, releases easier and is stronger for bigger leads
- Slim design for better presentation
- Parallel swivel chamber reduces damage from quick links

ITEM NO.	SIZE	PCS	PRICE
49890	3cm	20pcs	-
49891	6cm	20pcs	-

Pack Size: 5

### LINE ALIGNER SLEEVES

Semi rigid shaped sleeves to improve mechanics of your hook and rigs

- Protecting knots
- Produces a neat and protected hook presentation
- Improves significantly the hook set
- Thread your hooklink through the sleeve
- Slide it over the eye of the hook
- Length can be adjusted by trimming sections of the wide end

ITEM NO.	SIZE	PCS	PRICE
49892	M	20pcs	-
49893	L	20pcs	-

Pack Size: 5

### TAIL RUBBERS

Reduces tangles and secures the lead on lead clips

- Universal tail rubber for lead clips, reduces tangles and secures the lead

ITEM NO.	SIZE	PCS	PRICE
49894	Normal	15pcs	-
49895	Long	15pcs	-

Pack Size: 5

Pack Size: 5

### MULTI PURPOSE RIG KIT

A universal lead system designed for semi fixed or running lead rigs

- No tangles
- Large bore lead ring ensures the lead is dropped safely should the line break
- Easily changed from running to fixed without untying

ITEM NO.	PCS	PRICE
49902	3pcs	-

Pack Size: 5

### SEMI FIXED RIG BUFFER & RING

Essential components to create your own solution for a fixed or running rig

- Good solution for medium and long range presentation
- Fits all size 8 swivel on the market
- Click the ring over the buffer for a fixed presentation
- Can be used with any leader material or anti tangle tube

ITEM NO.	PCS	PRICE
49903	15pcs	-

Pack Size: 5

### HELICOPTER RIG KIT

A complete anti tangle Helicopter rig kit

- No tangles
- Perfect for distance casting
- Lead drop off system utilising hole in sleeve
- Can be used with anti tangle tube, soft leaders or lead core

ITEM NO.	PCS	PRICE
49904	3pcs	-

Pack Size: 5

### HELICOPTER/CHOD RIG BUFFER

A buffer bead designed for all types of helicopter rig including chod rigs

- Designed with tapered tail to protect the line when fighting fish
- Lead drop off system utilising hole in sleeve

ITEM NO.	PCS	PRICE
49905	15pcs	-

Pack Size: 5

### ULTRA GRIP BEADS

A grip bead for use on Chod rigs, helicopter rigs and run rigs as a shock bead

- Designed to grip the leader material to form a stop or buffer for the rig

ITEM NO.	PCS	PRICE
49906	20pcs	-

Pack Size: 5

### CHOD BUFFER

A two part buffer bead designed for chod rigs

- Can be used for fixed chods on soft core and lead core leaders or running chods with monofilament

ITEM NO.	PCS	PRICE
49907	15pcs	-

Pack Size: 5

### ANTI TANGLE TUBE

- 0.5mm bore tubing to reduce tangle
- Tubing to protect the line, the fish and reduce tangles
- A good alternative to leaders
- Can be used with all types of rigs

ITEM NO.	SIZE	PCS	PRICE
49908	2.0m	1pcs	-

Pack Size: 5

### DROP BEADS

Rubber shock absorbing bead

- Universal bead for use on running rigs, chod rigs and helicopter rigs
- Tear drop design to reduce friction and help with swivel rotation
- Designed to be used above and below the rig swivel to lock the rig on soft core leaders and lead core leaders

ITEM NO.	PCS	PRICE
49909	24pcs	-

Pack Size: 5

### SILICON RIG TUBE ASSORTMENT

5 cm sections of 1 and 2 mm bore silicon rig tubing

- For rig applications like trapping hairs, line aligning and kickers for rig swivels or quick links

ITEM NO.	PCS	PRICE
49910	20pcs	-

Pack Size: 5

### SILICON QUICK LINK SLEEVES Ø3MM

- Designed for covering quick links and swivels
- Cut to required length and slide over quick link or swivel
- Reduces tangles

ITEM NO.	PCS	PRICE
49911	20pcs	-

Pack Size: 5

### SHRINK TUBE ASSORTMENT

- Designed for protecting rig knots
- Perfect for line aligner, pool rig, other bent hook rigs and a multitude of rig applications
- Can improve the mechanics of your rig without damaging the fish.

ITEM NO.	SIZE	PCS	PRICE
49912	M Ø1.5&2mm	20pcs	-

## LAST METER DOWNFORCE TUNGSTEN COMPONENTS

Having the most invisible rig and at the same time well pinned to the bottom is a key point for all the modern and most demanding carp anglers. Having your rig well placed on the bottom is not just an important mimetic issue, it also helps substantially the correct mechanics of the hook, helping to have a fast and effective alignment of the hook that always guarantee a better and solid hook up in the bottom jaw. All our DOWNFORCE products are made using high Tungsten percentage plastic mixture that guarantees a long lasting usage.

### DOWNFORCE TUNGSTEN ULTRAGRIP BEADS

A grip bead for use on Chod rigs, helicopter rigs and run rigs as a shock bead

- Designed to grip the leader material to form a stop or buffer for the rig

ITEM NO.	PCS	PRICE
49934	12pcs	-

Pack Size: 5

### DOWNFORCE TUNGSTEN CHOD DROP BEAD

A two part buffer bead designed for chod rigs

- Can be used for fixed chods on soft core and lead core leaders or running chods with monofilament

ITEM NO.	PCS	PRICE
49935	10pcs	-

Pack Size: 5

### DOWNFORCE TUNGSTEN ANTI TANGLE TUBE

### DOWNFORCE DROP BEAD

Rubber shock absorbing bead

- Universal bead for use on running rigs, chod rigs and helicopter rigs
- Tear drop design to reduce friction and help with swivel rotation
- Designed to be used above and below the rig swivel to lock the rig on soft core leaders and lead core leaders

ITEM NO.	PCS	PRICE
49943	12pcs	-

Pack Size: 5

### DOWNFORCE TUNGSTEN DROP RIG SINKERS

Made from heavy tungsten, designed to easily slide onto your hook link or main line and ensure everything is pinned down to the lake bed, keeping your hook length out of the carp's way. Not only will these help with sinking your mainline they can also be used for fixing the top bead when fishing the naked chod. Simply slide the sinker onto your line and a wide bore tapered bead will softly grip it, forming the perfect but safe stop.

- High density Tungsten
- Natural no spook colour
- Smooth rounded edges
- Available in 2 sizes

ITEM NO.	SIZE	PCS	PRICE
49940	Standard	15pcs	-
49941	Mega	10pcs	-

Pack Size: 5

### DOWNFORCE TUNGSTEN ANTI TANGLE RIG SLEEVES

Rig sleeve designed to protect the knot and force the rig away from the lead to reduce tangles

- Pushes the rig away from the lead without impairing the performance of the rig
- For use with size 8 swivel
- The metal arm reduces twist, releases easier and is stronger for bigger leads
- Slim design for better presentation
- Parallel swivel chamber reduces damage from quick links

ITEM NO.	SIZE	PCS	PRICE
49938	5cm	12pcs	-

Pack Size: 5

### ZIG FLASH EGGS

- Ultra buoyant

57141	M	-
57142	L	-

Pack Size: 1

#### LAST METER BAIT PROTECTOR SHRINKING TUBE

Full range of bait protector shrinking tube to preserve your bait from nuisance fish attacks and from the terrible damages that crayfish can create to your hookbait. Available in a variety of sizes they can be used for baits from 12mm up to 32mm.

Another important addition to this range are the two high visibility versions in Hi-Viz Yellow and Hi-Viz Orange, in some extreme situations our baits can be reduced to a very small particle, even with the Protector Shrinking Tube, in these situations is extremely important to have at least some good visual attraction that can trigger the curiosity of the carps and eventually let them taste what is left of your bait. Especially during the night this can make the difference, avoiding you to spend a full night on the bank with no bait left in your rig.

ITEM NO.	SIZE	COLOUR	PCS	PRICE
49970	14mm	Transparent	10pcs	-
49971	22mm	Transparent	10pcs	-

Pack Size: 5

## LAST METER READY RIGS & LEADERS

For easy/quick carp fishing and instant results, you just have to try the new Prologic Ready Rigs. Designed and constructed to perfection, so whether you're a first timer or more experienced you will have no problem in incorporating them in to your angling.

Each rig is constructed from either Reptilian coated Braid, Super soft Viper braid, Mirage 3D mono hook link or Supple Super Snake braid so whatever the environment, we have it covered with the right rig for the right situation. Not only that, each

rig comes readily available in a range of hook sizes or patterns. The new razor sharp XC2, XC5, XC7 help form the key part of these amazing rigs.

Each Ready-Rig is presented perfectly on a dedicated rig board package to keep it straight and ready to use. Perfection and confidence straight from the packaging with no kinks, when it comes to actually using it. Now, these are also supplied with a selection dedicated Bait Stops in the same package absolutely free of charge - just enough to keep you going until next time !!

## BLOW BACK COMBI RIG

Constructed using our coated Reptilian braid perfect when fishing weedy and rough terrain, with the last 2 cm striped back which forms a perfect supple hinge. This allows for a multitude of different bait presentations. From bottom baits to pop ups a truly versatile rig. Fitted with a quick change swivel, anti-tangle sleeve, Shrink tube kicker and blow back sleeve.

### AKUA BRAID LEADER 30LBS

Akua braided leader is an unique product that comprises both braid and fluorocarbon to create a super tough yet forgiving and shock absorbing leader. Akua is perfect for targeting big fish at close range, particularly on snaggy, rocky river systems with hard fighting fish. The high 30lb breaking strain can be achieved with a 5 turn Grinner knot while the addition of fluorocarbon strands provides fast sink speed and increased durability.

- Tough 30lb breaking strain
- Special blend of fluorocarbon & braid
- Unique shock absorption properties
- Perfect for targeting big fish at short distances
- Weed green camo

## VIPER ULTRA SOFT

As clearly mentioned in the name, this is the softest hooklink braid in our range, made using 8 strands of HMPE mixed with high-density PL fibres to create the most supple and smooth hooklink in our range. All the fibres used feature a higher density than the water so the VIPER ULTRA SOFT can sink and lay down on the bottom perfectly, providing the perfect presentation of your hookbait. The perfect solution for strong but discrete presentations.

- Sinking
- Two tone green camo
- Ultra supple and soft
- Perfect for high pressured waters

ITEM NO.	LENGTH	BS	COLOUR	SINK RATE	PRICE
49999	15m	15lbs	Two tone camo	Sinking	-

Pack Size: 5

## VIPER 3S

High density fibres braided together with a special PE fibre which has been treated with a special anti-friction treatment. This process provided to the VIPER 3S hooklink braid creates a faster sinking ratio and very good abrasion resistance. Being not too soft the VIPER 3S is the perfect solution to fish with long rigs or in every situation where you need discrete presentation that can handle snags and debris on the lake bed.

- Fast sinking
- High abrasion resistance
- Three tone green camo
- Soft and smooth

ITEM NO.	LENGTH	BS	COLOUR	SINK RATE	PRICE
50084	15m	15lbs	Three tone green	Fast sink	-

Pack Size: 5

## SUPER SNAKE FS

Extreme braid for extreme situations, the SUPER SNAKE FS features Aramid and PTFE fibres. These two fibres are then braided together to create an ultra-abrasion resistant braid. Thanks to the high density of the fibres used this braid sinks 15% faster than nylon monofilament and the matt finish colour provides the best camouflage possible with zero light refraction of the water. Ultimate abrasion resistance

- Fast sinking
- Semi soft
- Smooth surface
- Matt surface / no light refraction
- Solid green camo

Pack Size: 5

## REPTILIAN COATED

High density PE fibre with a semi-stiff coating. The REPTILIAN COATED is a very good solution for the most advanced combi rig, once the coating is removed you will find an extremely smooth and supple braid inside that will allow infinite presentation solutions. Slow sinking, the coating is also a big advantage when you need to cast your rig to extreme distances, helping to reduce dramatically any risk of tangles.

- Semi-stiff coating
- Ultra soft PE inner braid
- Transparent coating
- Slow sinking
- Two tone brown camo

Pack Size: 5

## PHYTON HOLLOW CORE

Ultra soft hollow leader, it can be spliced as a normal leadcore and it sinks fast as a stone. This is the best leader material available for ultra suspicious carp. Thanks to the hollow core it lays down on the bottom following the profile of every single small lump or bottom debris. Being so soft makes this leader material ideal for medium range fishing.

- Hollow body leader material
- Easy to splice
- High abrasion resistance
- Spotted brown camo
- It adapts to the profile of the bottom

## PHYTON METAL CORE

Environmental friendly lead-free leadcore, the PHYTON METAL CORE offers the same sinking performance of a traditional leadcore, but thanks to the pure Tin used it remains softer and easier to work with. The perfectly braided woven outer material is made using lower density structure that allows strong and easily spliced loops.

- Lead free leadcore
- Two tone green camo
- PE woven outer material
- Easy to splice

## MIMICRY GREEN HELO

New Mimicry pattern with three shades of green, perfectly toned with natural environments as well as offering a vivid and modern look to your reel after spooled with the line. This new generation of Mimicry is not only carrying new color, but its structure has also been improved to an advanced grade of monofilament by utilizing superior copolymer material - strength to diameter ratio is therefore being maximized.

- Improved construction
- Improved camouflage properties
- Reduced stretch
- Increased density / better sinking ratio.

## MIMICRY 3D CAMO LINE RANGE

With the mimicry pattern the lines, the profile is totally absorbed into its surroundings and cloaked from the vision of any targeted fish. This can only be achieved by mixing four natural shades and colours and by having it applied to the line in a totally random manner, therefore fusing the natural light spectrum and eliminating the outline or presence, of an outside edge. The evolution of the new mimicry camo range has begun taking you to the 3rd dimension. To cover every fishing situation we have developed 3 different blends of mimicry 3d camo mainline, all of them with excellent breaking strength, sinking and reduced stretch.

### MIMICRY MIRAGE XP

Mirage – which will suit a general every day fishing situation.

### PROLOGIC DENSITY CARP MONO

A high-density monofilament which has been designed and created around all your angling requirements. Only after 2 years in development and then finally a year in testing are we now happy to introduce you to this great new product.

A Monofilament which sinks so fast we just had to call it Density. We have greatly reduced the overall stretch rate, resulting in a much more focused yet direct trans-

mission. Achieving even higher standards feedback for a precise feeling. This has all been achieved while maintaining high knot strengths and even greater abrasion resilience. Our unique treatment process after extrusion aids for higher standard of smoothness with less active memory. Meaning it behaves very limp, soft and more natural to touch, which in turn aids for longer more accurate casting. Never have we seen such a truly versatile line without any compromise.

- High abrasion resistance
- Low Memory
- Green or anti-glare Natural brown
- Adhesive marker every 250m

### XLNT HP

Improved version of our glorious and famous XLNT. Thanks to a new extrusion process and new Co-polymer (Twin build Co-polymer) we have increased the knot strength and reduced the memory, making the XLNT HP the perfect allround carp monofilament with amazing casting performance and perfect camouflage thanks to the new 4 tones camo pattern.

- Sinking
- Controlled Stretch
- Twin build Co-polymer
- 4 tone camo
- High abrasion resistance

## XLNT HP MOSS GREEN

Matt finish moss green, offering maximum camouflage ability to the line. Along with XLNT's traditional attributes - low stretch, fast sinking, high strength, and abrasion resistant - XLNT HP Green is just another member in the awesome family that you cannot miss out on.

- Matt finish moss green
- Improved camouflage properties
- Reduced stretch / fast sinking
- High abrasion resistance.

## BULLDOZER SNAG LEADER

The strongest snag and shock leader available. High density Co-polymer combined with a special outer treatment provides the BULLDOZER SNAG LEADER with the best abrasion resistance and the fastest sinking ratio available, all combined with an incredibly smooth surface which allows to tie perfect knots even with the bigger diameters. Special attention has been given to the color : we have combined black and green in matt finish to avoid any possible light reflection on the rigs area.

- Fast Sinking
- Supreme abrasion resistance
- Easy knot treatment
- No reflection color
- Green & black camo

## RIVER SPECIAL MONO

All the latest technologies have been used to produce the RIVER SPECIAL MONO, the first monofilament in the market dedicated to this particular environment. Using an innovative extrusion process and different co-polymer (Twin build Co-polymer) combined together, we built this monofilament with a controlled stretch which help to fight strong river carp at short distance avoiding hook pull. The surface has been treated in two different steps to be extremely smooth and to obtain an unrivalled abrasion resistance. Thanks to this heavy duty usage properties the RIVER SPECIAL MONO is the perfect monofilament

for any difficult situation when you have to deal with dangerous obstacles and big carps. The exclusive clear-green two tone camo color used makes this monofilament almost impossible to find for the carp, but in the meantime it is clearly visible out of the water, allowing the angler to keep total control of the direction of the fish during the fight.

- Superb abrasion resistance
- Sinking
- Controlled Stretch
- Twin build Co-polymer
- Clear and green camo
- Heavy duty monofilament

### BULLDOZER BRAIDED MAINLINE

Slow sinking braided line, with gravity 1.1. Improved coating technology to enhance color adhesiveness. Along with tight braiding, the line has better resistance to cutting edges and repeated friction. Core fiber has a slightly higher rigidity to balance PE's softness, as well as to reduce tangle possibilities.

- Slow sinking
- Matt green finish
- Great casting performance
- No memory
- Zero stretch
- Low friction surface treatment
- High abrasion resistance.

### PROLOGIC WRAP-UP SPOD & MARKER BRAIDS

A low diameter 4 Ply PE Cross-over constructed braid, allowing you to cast further with great efficiency than ever before. The fluoro green colour is broken up at every 12ft/360cm intervals allowing you to use your marker/measuring sticks in much tighter swims by simply counting out the black markers. This robust hard-wearing PE fiber braid and has an incredibly high knot strength, which is paramount when you think just how much punishment your Spod setup receives. The PE fibers are also fused together helping to keep wind knots and frap ups to a minimum, but also ensuring a remarkable transmission and fantastic feedback. Making it our go too choice for any Marker rod and feature finding set up as well. There are 250m on each spool and two version available –

**Wrap-up AR** (All Rounder) which is aimed for your average every day loads/casts of up to 100m meters.

**Wrap-up XD** (Extra Distance) is much more focused for range fishing and we would recommend the use of 720cm a shock leader - **54484 Bulldozer K braided shock leader**.

- 4 Ply PE Cross-over construction
- Low Diameter for efficient casting
- Zero stretch for even greater feedback
- Round profile dramatically reduces wind knots
- Green High-Viz colour,
- Wrapping markers at 12ft-360cm intervals for use in tight swims
- Spool Size: 250m
- Available in 20lb XD (Extra Distance) & 35lb AR (All Rounder)

### HERITAGE THERMO JACKET

The Heritage jacket is a performance waterproof, breathable, insulated product designed to combat all weather conditions.

- Soft, extremely comfortable 100% polyester oxford shell fabric in mélange Color
- Warm inner 100% polyester micro fleece lining at body/taffeta lining at sleeves
- 100% waterproof TPU membrane of 8.000mm and taped seams
- Breathable
- Ultralight, yet fully insulated by 160gsm 100% polyester wadding
- Detachable and adjustable insulated hood with wired peak
- Quality 2-way main zipper with double wind fillet
- Adjustable waist and hem for perfect fit
- Soft inner rib cuff with velcro adjustment on outer cuff
- 2 box pockets with fleece-lined handwarmer pockets behind
- 2 water-repellent zipped chest pockets
- Zipped inner pocket
- High fleece-lined collar for extra warmth & comfort

## COMFORT THERMO SUIT 2 PCS

Extremely lightweight 2 piece thermo suit keeping you comfortably warm under very cold conditions!

- 100% waterproof and windproof with taped seams
- Strong 210T nylon tadel shell fabric with high abrasion
- Fully insulated by 120gm2 wadding
- Warm comfortable fleece lining

### Jacket:

- Detachable and adjustable insulated hood with wired peak for perfect view
- Velcro storm flap over 2-way zipper
- Adjustable waist for perfect fit
- Tight inner ribbed cuff and velcro adjustable outer cuff
- Fleece lined handwarmer pockets
- 3 large outer pockets and 1 zipped inner pocket
- Color Max5

### B&B:

- Adjustable elastic suspenders with strong buckles
- 2 large outer pockets and 1 zipped inner pocket
- Front zipper with storm flap
- Elastic at back waist for perfect fit
- Fleece lined handwarmer pockets
- Inner pocket with velcro closure
- Wide zipped gusset and velcro strap at boot for easy access
- Color Max5

# REALTREE FISHING PATTERN

When going fishing, anglers strive to be dry, warm and comfortable. These elements are the fundamentals of creating a successful fishing trip. So, why care about the design? As an angler, we try to be as well connected to nature as possible. This means, following the rhythm of trees, waters and fish. We want to blend in to be part of nature.

Realtree Fishing is a new premium print with incredible details that emphasizes that perception, capturing the feel of reflections, refraction of light and the occasional underwater limb - images that are recognizable for hardcore anglers.

The first Realtree pattern was created by Bill Jordan, who sat in his garden with a pencil and started painting his old oak tree on a flat background. By doing this, he discovered that if he mixed the layers, a 3-dimensional pattern would appear which could blend into a variety of terrains. Today new and better patterns are developed using computer programs.

We believe this new Realtree Fishing pattern for sure will become popular with anglers that are proud of their outdoor lifestyle and value their time on and around the water. It fits perfectly into our ProLogic range of high functionality, high quality and cutting edge products.
